

FLEXIBLE SERVICE
RIGID STANDARDS

JUNO inc

flexible assembly- whatever it takes

Juno is a contract manufacturer of plastic and metal components with a broad range of manufacturing processes and a "whatever it takes" attitude toward meeting your requirements. Beyond manufacturing individual components, Juno can help you get to market with cross-functional teams for complete turnkey assembly from design support through packaging.

specialized expertise . . .

- Robotic assembly cells created specifically for you to meet volume and price targets
- Combination with manual assembly to provide low cost solutions
